Mosquito dead body

With 3 simple steps: **Attract, Captivate, Elimination**. Using harmless BLACK UV-A Light emitted from the UV tube, flying insects are **Attracted** by the unit. This coupled with its built-in fan works to suck in the insects. Upon **Captivation**, the insects are then safely and efficiently **Eliminated** by the electrically charged grids. Safe to use and containing no toxic chemicals. Low energy consumption allowing it to be an affordable and economical solution to getting rid of irritating flying insects.
